PROFESSIONAL SUMMARY

Computer Science graduate specializing in Artificial Intelligence and Machine Learning, with hands-on experience in Python, Machine Learning, Deep Learning, Computer Vision, and web application development. Experienced in developing AI-based and web applications using Python, TensorFlow, Keras, Flask, HTML, CSS, and JavaScript through academic projects and internships. Strong foundation in OOP, DSA, problem solving, and software development.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, JavaScript
- **AI & ML:** Machine Learning, Deep Learning, TensorFlow, Keras, Computer Vision
- **Web Development:** HTML5, CSS3, JavaScript, Flask
- **Database:** MySQL
- **Core CS:** Object-Oriented Programming (OOP), DSA, Problem Solving
- **Tools:** Git, GitHub, VS Code, Jupyter Notebook

PROJECTS

RiceLeafXNet – AI-Based Rice Disease Detection System

Technologies: Python, Flask, TensorFlow, Keras, Deep Learning, HTML, CSS, JavaScript, SQLite

- Developed a Flask-based AI application for rice leaf disease classification using deep learning and transfer learning.
- Implemented EfficientNet, DenseNet, ResNet, and MobileNetV2 models for image-based disease prediction.
- Integrated image upload, prediction confidence, user authentication, scan history, and crop-care recommendations.

Sign Speak – Real-Time AI Sign Language Translator

Technologies: Python, Flask, TensorFlow, OpenCV, HTML, CSS, JavaScript

- Developed a full-stack AI-based web application to translate Indian Sign Language gestures from live webcam input into text and multi-language speech.
- Implemented computer vision and deep learning models using TensorFlow for real-time gesture recognition.
- Integrated backend and frontend components to ensure smooth data processing and user interaction.

Frontend Web Development Mini Projects

Technologies: HTML, CSS, JavaScript

- Developed responsive frontend web pages including login forms, UI designs, and a basic hotel management website interface.
- Implemented CSS styling, page layouts, form validation, and basic JavaScript interactions to improve usability and user experience.

INTERNSHIPS

- ServiceNow Virtual Internship Program | ServiceNow University, AICTE & SmartBridge | Apr 2026 |
- Generative AI Virtual Internship | AICTE Eduskills | Jul 2024 – Sep 2024 |
- Zero Trust Cloud Security Virtual Internship | Zscaler, AICTE Eduskills | Jan 2024 – Mar 2024 |

EDUCATION

- B.Tech – Computer Science (AI & ML), Pragati Engineering College | 2023 – 2026 | CGPA: 7.88/10
- Diploma – Computer Engineering, Nuzvid Polytechnic College | 2020 – 2023 | 79.61%
- SSC (10th Class), ZPP High School | Percentage: 94%

CERTIFICATIONS

- Zscaler Zero Trust Associate (ZTCA) | Zscaler | 2025
- Data Science with Python | Harvard University (edX)
- ServiceNow Micro Certification | ServiceNow University | 2026

ACHIEVEMENTS

- Outstanding Performance Award – Department Technical Expo | Weather Forecasting Web Application using Weather API
- Event Coordinator – Logic Unlock | Department Technical Event.
